

Colorado Propane Education and Research Council

2011 - 2012 Safe Appliance Installation Rebate Program

Rebates are available for the safe installation of propane appliances in 2011 – 2012 until funds are depleted.

This project will reward Colorado propane customers to pay for a qualified technician to conduct a safety audit of the safe installation of certain propane appliances. The objective is to promote the safe installation of propane appliances. This safe installation program will foster consumer safety awareness and support the proper installation of new appliances that replace older, less efficient models. Rebates are available for:

<u>Appliance</u>	<u>Rebate Amount</u>
Water heater – tank or tankless	\$300.00
Furnace or Direct Vent Heater	\$500.00
Dryer	\$100.00
Stove or Oven	\$200.00
Propane Refrigerator or Freezer	\$200.00

In order to qualify for these rebate funds, a safety inspection, such as a Gas Check, must be performed by the participating dealer prior to the submission of any rebate application. An appropriate safety inspection consists of an on-site inspection including any pressure tests, of an eligible installation by the participating dealer. The purpose is to verify that the propane gas system, including all equipment, is installed in compliance with the appliance manufacturer's installation instructions and all applicable LP gas codes and regulations adopted by the authority having jurisdiction. A copy of the Dealer's safety inspection form, signed by the contractor or homeowner, must accompany the rebate application.

Rebates are processed on a first come, first served basis until availability is exhausted. Marketers are encouraged to contact Baron Glassgow for a pre-approval number, which is good for 90 days. All safe appliance installation rebates must be submitted within 45 days of installation. The safe installation rebate must be awarded to the consumer.

To help ensure the timely processing of applications, please make sure all requested information is included. Incomplete rebate requests will not be processed. Baron Glassgow will be processing requests.

The 2011 - 2012 safe appliance installation rebate application can be downloaded at www.copropane.com.

The propane marketer seeking a rebate must submit a full and complete Application form. Submission of the Application form constitutes a representation on the part of the participating propane marketer that the work shown on the form has actually been completed. A safety inspection must be performed by the participating propane marketer after the installation of each new qualifying appliance and the result of that inspection must be documented on the Application form. The safety inspection for qualifying installations must, at a minimum, include the following: 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations; and 3) a flow and lock up test on the regulator[s]. The propane marketer agrees to comply with all laws, rules and regulations governing the installation of the qualifying appliance and with the manufacturer's installation instructions. The Colorado Propane Association assumes no responsibility whatsoever for the installation, inspection or testing of the qualifying appliance or any associated gas system and, by issuing a rebate, makes no representation, warranty or guarantee regarding the qualifying appliance or the associated gas system. The Colorado Propane Gas Association disclaims any liability for any personal injury, property damage, business losses or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying appliance.

A safety inspection, such as a Gas Check, must be performed by the participating dealer prior to the submission of any rebate application. An appropriate safety inspection consists of an on-site inspection of an eligible installation by the participating dealer. The purpose is to verify that the propane gas system, including all equipment, is installed in compliance with the appliance manufacturer's installation instructions and all applicable LP gas codes and regulations adopted by the authority having jurisdiction. A copy of the Dealer's safety inspection form, signed by the contractor or homeowner, must accompany the rebate application.

To receive your rebate you must:

- Complete this form.
- Include a copy of the paid invoice or receipt from the propane water heater purchase.
- Include a copy of the safety inspection form that includes 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations; and 3) a flow and lock up test on the regulator[s].

Submission of the rebate application form constitutes a representation on the part of the consumer and participating propane marketer that the work shown on the form has actually been completed. A safety inspection must be performed by the participating propane marketer after the installation of each new qualifying appliance and the result of that inspection must accompany the Application form. The safety inspection for qualifying appliance installations must, at a minimum, include the following: 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations; and 3) a flow and lock up test on the regulator[s]. The propane marketer agrees to comply with all laws, rules and regulations governing the installation of the qualifying appliance and with the manufacturer's installation instructions. The Colorado Education and Research Council (CPERC) assumes no responsibility whatsoever for the installation, inspection or testing of the qualifying appliance or any associated gas system and, by issuing a rebate, makes no representation, warranty or guarantee regarding the qualifying water heater or the associated gas system. CPERC disclaims any liability for any personal injury, property damage, business losses or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying appliance. I certify that this propane appliance was purchased for installation at the above address. I am aware that copies of completed safety inspection form and a receipt of purchase are required at the time of submission of the rebate form for the rebate to be processed. I am further aware that no check will be issued until all program requirements have been met. I understand that it is my responsibility to install the appliance to meet all applicable codes. All rebates are subject to availability. This is a limited offer and all requests will be processed on a first come, first served basis. CPERC has first rights on interpretation of all terms and conditions pertaining to this offer.
